Building permit fees are calculated by square footage of work area, or construction value depending on the scope of work. Grading permit fees are required for all new principle structures. Temporary power fees are required for all new dwellings, and new commercial building projects and upfit/alterations. The fee for temporary power may be waived in instances of upfit or alterations projects within occupied structures currently served by permanent power. A non-refundable application fee of \$77.25 is included in the charges on all permits.

To prevent any delay or additional costs due to deviations to any permit approved based on this completed application, please read the following acknowledgement very closely before signing.

I hereby certify that there are no deed restrictions, contractual agreements or governmental regulations of any kind that interfere with or prohibit the use of the property or the use for which this permit is requested. I further acknowledge that the enforcement of deed restrictions, plat, conditions, and other contractual agreements will not be undertaken by the Department having Jurisdiction and is the sole responsibility of the affected parties.

I hereby certify that all information in this application is correct and all work with comply with the state code and all other applicable state and local laws, ordinances and regulations. The inspection department will be notified of any changes in the approved plans and specifications for the project permitted herein. This application becomes a permit only when validated and approved.

Signature of Contractor: _____
